

Compleap Data Declaration

Data protection is a high priority for the Competence Leap (Compleap) project. We are developing user-centred digital ecosystem, user privacy, transparency and consent are crucial for the success of the project. Thus, as documented in this data protection declaration, all partner organisations of the Compleap project are committed to full compliance with the EU General Data Protection Regulation (GDPR) as well as Responsible Science Program guidelines in University of Oulu.

The use of this website and its internal pages, as well as webpages showcasing Compleap prototypes, is possible without any indication and storage of personal data. However, during the piloting phases of the project, processing of personal data could become necessary. If the processing of personal data is required, we will by default obtain consent from the data subjects.

The processing of the personal data

The processing of personal data, such as name, education, employment status, e-mail address, or telephone number of a data subject shall always be in line with the General Data Protection Regulation (GDPR). Scientific research conducted in the framework of the project will also follow Responsible Science Program guidelines in University of Oulu. Through this data protection declaration, we would like to inform anyone concerned and the general public of the nature, scope, and purpose of the personal data we collect, use and process. We use public interest in a form of scientific research and performance of the task carried out in the public interest as a basis for processing personal data.

Sensitive personal data (such as location, ethnic or racial origin) that may occur in the research during the piloting phase will be modified so that identifying information will be minimized. No real names will be used in the research. Collected data will be used only summarized, no direct identifiers will be used.

Organisations doing the research: Compleap Project, Jyväskylän Educational Consortium, Finnish National Agency for Education and Oulu University funded by European Commission

The purpose of the research:

Gather information about user experience when using Compleap digital services for mapping own education as well as gather information needed for further development and understanding of digital services for career and education guidance.

Parties responsible for organisation of the piloting and data controlling:

- Jyväskylä Educational Consortium, Tarja Puura, tarja.puura@gradia.fi, Viitaniementie 1, 40720 Jyväskylä, organisation and coordination of piloting, research material gathering
- Finnish National Agency for Education, Annica Moore, annica.moore@oph.fi, Hakaniemenranta 6, 00530 Helsinki, data controller responsible for research material handling and archiving.

No personal data gathered in Compleap project will be transferred outside EU/European economic area, no automated decision will be made based on this data.
